**DETAILED ACTION**  
**EXAMINER'S AMENDMENT**

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 1 should be designated by a legend such as --Prior Art-- In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

**Statement of Reasons for Allowance**

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: none of the cited references discloses nor suggests the claimed invention including "two amplitude adjustment circuits each of which contains a switching bank and combiner that enables the summation of input signals from a respective one of the digital delay lines to produce amplitude variances in output vectors therefrom" as set forth in the claims.

As for the possible obvious double patenting issue between this application and the common inventors application (10/796,419), taken alone or in combination of other references, no suggestions of "two amplitude adjustment circuits" as stated above have been found.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
